## **ENGINEER'S REPORT.**

---

In submitting our annual report we are very much pleased to have so few fires to record.

The alarm Sept. 7th, 1900, was for a fire at Howard Furniture Co's shop, prompt service subdued the blaze with slight damage.

Sept. 13th the buildings on farm owned by Effie Dunbar were totally destroyed. Loss on buildings and hay, \$3000. Insurance, \$2,000. Cause probably incendiary.

The services of the firemen were necessary to stop spread of flames in the grass, a high wind prevailing at the time. The buildings were unoccupied and beyond saving before the alarm was given.

The hand extinguishers have been used several times and without doubt have saved thousands of dollars worth of property the past year.

In our last report we recommended hand extinguishers be placed in some of the thickly settled places outside of the village, but feeling we ought to keep within our appropriation earnestly hope this will be done in the near future.

New suction hose was purchased for No. 1 tub, and suction of No. 1 transferred to No. 2 thus putting both tubs in good working order.

The engine house is sadly in need of a coat of paint.

The department certainly needs more water in some sections of the village. Private use of the hydrants should be strictly forbidden without permission of the firewards.

We wish to thank the department for their kind treatment and support and the citizens for their respect and liberal salary.

Respectfully submitted,

## **REPORT OF BOARD OF HEALTH.**

---

Your health officers have attended to their duties and have tried to improve the sanitary condition of the town.

Early in the year the town was visited with a very malignant type of scarlet fever, out of nine families affected there were five deaths but with the co-operation of most of the citizens we were able to hold it where ever it appeared, not *one case* being traceable to *any* of the former cases.

A reservoir on Maple St. at the corner of Prince, originally intended for an additional water supply in case of fire, became a menace to health and a menace to the neighborhood on account of the foul odors arising therefrom, to such an extent that it was deemed advisable to fill it with earth.

The death rate for the past year was 30.12, the principal causes of death were as follows: Pneumonia, 8, consumption, 5, lagrippe and its attending results, 5, scarlet fever, 5, various other causes, 28.

## **REPORT OF SCHOOL BOARD.**

For the year ending Mar. 1, 1901.

---

Our calendar reminds us that the time has come when another report of the work and condition of our schools is expected from us. In the time and space allowed us, only a few brief facts can be given. At the annual school meeting held Mar. 17, 1900, Miss M. L. Moore was re-elected a member of the School Board for a term of three years. The Board soon organized with Mr. H. L. Emerson as chairman, Hon. D. E. Proctor as treasurer, and Miss Moore as secretary, as in the preceding year.

The enumeration of children in town, taken by Mr. A. A. Farnsworth last April, showed a total of 334, 172 boys and 162 girls, a loss of 8 over the preceding year.

To state just the present condition of the schools, compared with a year ago, is a difficult, an impossible thing. We feel that as a whole progress has been made. We know this to be true in some of our schools. A scarlet fever scare, the prevalence of whooping cough, vaccination, bad weather, all these affect the well being of the schools and must be reckoned as disturbing forces. On the other hand the schools most affected in this way have been in charge of the same efficient teachers so the work has not been so seriously hindered.

At the village where conditions are the best the same teachers, with two exceptions, have continued in charge as during the preceding year. At the close of the spring term we accepted with regret the resignation of Miss Clara H. Blood. Having observed her work during her two

years service, we feel it but justice to here commend her strength of character and unusual influence over pupils that gave her a rank among teachers above the ordinary. At the same time Miss Clintina E. Curtis tendered her resignation in order to more fully fit herself for her chosen work. Her untiring efforts and devotion to her work won for her our appreciation and wish that she might remain longer with us.

Of the High and graded schools we can speak only in general terms. Space forbids more. There has been marked progress in the matter of discipline and in some instances in the use of new and better methods. The large number of visitors in the lower grades during the year is noticed with pleasure. We solicit a like interest in our High school where the visits have been noticeably few. The work is less attractive to the ordinary visitor but equally worthy of our sympathy and interest.

During the year the schools have received from Mr. Ross Turner, the artist, five pictures which have been framed and hung in the several rooms. For this generous gift thanks are due him from all interested in our schools. A copy of the Declaration of Independence has been framed and hung in the First Grammar room; the thoughtful gift of the Woman's Relief Corps. Acting under the inspiration for decoration awakened, the teachers have added several more. The beneficial influence of good pictures no one will question. It is a move in the right direction. *Still there is room!* Who will be the next contributor?

In our rural schools there have been several changes as usual and for the same reason, less desirable fields; but even in them, two have retained the same teacher through

the year. The conditions are very different, the chance an uneven one. We visit a graded school with greater pleasure and satisfaction, an ungraded school with greater sympathy. In our efforts to keep pupils doing the same work, in the graded and rural schools, as near together as possible, we are led to ask, Why may they not have the same number of weeks in the school year?

Within only a few weeks the rural delivery of our mails came into use. Even now many are saying, How did we ever do without it? and yet, only a few years ago, it was spoken of as an impossible thing. In like manner we look for as great a change in our schools at no very distant day. A common centre, like work for all, centralization and a fuller and better supervision is our hope for the rural schools.

As with the teacher so with us. The longer we try to serve the schools, the deeper our interest in them. The oft spoken kindly word has been very helpful and much appreciated. The unkindly criticism, that comes to all in public service, we have borne with the feeling that if the work and the worker were better understood, the criticism would have been more kindly. That we have had the generous support of the citizens in many ways has been apparent.

For this in behalf of our teachers and ourselves, we extend our hearty thanks.

Respectfully submitted,

MARIA L. MOORE,

*Secretary of School Board.*
